

We manage the box, you manage the data

With InfiniBox FLX[®], you benefit from an all-inclusive subscription with pay-as-you-go scalability (up or down), hardware included for life, a 100% data availability guarantee, and an end to the risks and costs associated with data migrations. InfiniBox FLX frees you from ever having to acquire or configure your storage infrastructure up to multi-petabyte scale, and includes the unmatched performance, availability, and economic advantages of the market-leading InfiniBox on-premises solution.

MARKET-LEADING STORAGE INFRASTRUCTURE-AS-A-SERVICE

InfiniBox FLX is an entirely new concept in the delivery of enterprise storage infrastructure for organizations requiring storage up to multi-petabyte scale. Until now, the faster-than-all-flash performance and industry-leading reliability and availability that made InfiniBox an industry leader were only available via a capital expense (CapEx); undefined abbreviation purchase. With InfiniBox FLX, you get the storage capacity you need—on-demand—through a subscription model that includes:

- ▶ The capacity and capacity planning to meet your evolving needs
- ▶ Configuration of InfiniBox FLX on-premises hardware and software
- ▶ Data migration, without risk, between InfiniBox FLX managed systems
- ▶ 24x7 infrastructure management, monitoring, and global support
- ▶ 100% data availability guarantee

ALL-INCLUSIVE SUBSCRIPTION

Infinidat conducts a rigorous analysis of your current and future capacity and performance requirements in order to configure your InfiniBox FLX solution. All hardware, software licenses, warranties, monitoring, and support are covered in an all-inclusive subscription agreement.

PAY-AS-YOU-GO SCALABILITY

InfiniBox FLX enables you to pay as you go, up and down, with monthly charges based on provisioned capacity. If you are anticipating significant growth or variability in data consumption, InfiniBox FLX offers the flexibility and agility to only pay for the capacity you use, as you need it.¹

RISK MITIGATION AND COST AVOIDANCE

Data migration between InfiniBox FLX systems, today and in the future, enables you to minimize or eliminate the risk associated with storage upgrades, reconfigurations, and migrations.

COMPLETE REFRESH AVAILABLE EVERY THREE YEARS

Completely refresh your entire InfiniBox FLX System with the latest hardware and software every three years without downtime, migration risk, or additional cost.²

100% DATA AVAILABILITY GUARANTEE

Infinidat is able to provide a 100% data availability guarantee³ based on our industry-leading track record of seven nines availability. Any data unavailability that impacts your business is remedied with a credit towards the next monthly invoice for the entire affected system.

1. Discounts available via capacity and/or term commitment.

2. Hardware refresh may be scheduled or deferred at the customer's option. Restrictions may apply.

3. Contact your sales representative for details and applicable restrictions.

InfiniBox FLX provides you with the flexibility to only pay for the capacity you use, as you need it.
